Career Profile

An ambitious and self-motivated web developer, specialising in creating and maintaining custom WordPress websites. Experienced in using technologies such as PHP, Bootstrap, jQuery, HTML and CSS. Also familiar with server management software such as cPanel and WHM, as well as DNS management. Possessing a thorough understanding of business, developed through experience of running a company, with proven ability to manage and effectively prioritise workload between projects.

Currently looking for a rewarding position, that enables further career development and building on new skills, while working as part of an enthusiastic team who enjoy what they do.

Key Skills
